## JAYA MATA KNIFE STORY 刀故事馆

A VISUAL HISTORY OF DAGGER, BAYONET,  
SWORD & KNIFE

Jaya Mata Knife Story House is the place to rediscover history of knives, swords and scissors from ancient times to the present. Visitors will also have the opportunity to appreciate local knife culture in the story house.

### BUSINESS HOURS 营业时间

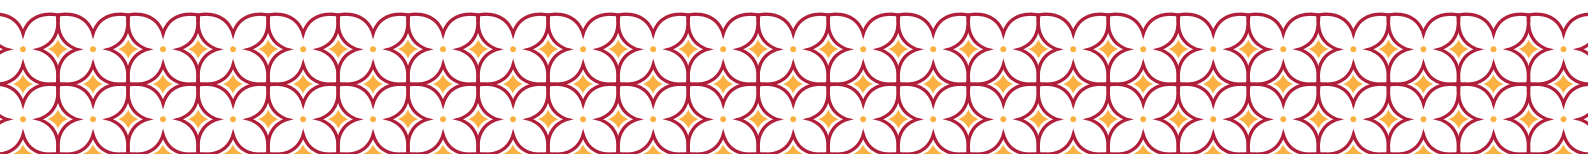

Tuesday - Thursday	10am - 8pm
Friday - Sunday	10am - 10pm
Closed on Mondays	

### JAYA MATA MULTIPURPOSE SPACE 多功能空间

This multipurpose space can be used to host cooking classes as well as other events such as seminars and workshops. Get in touch with us to make booking.

### LATERITE STONE WALL 铁锈石隔墙

Laterite stone found in historical ruins and some other old historical buildings. In early 16th century, the Portuguese used laterite stones sourced from Malacca's Pulau Upeh to construct the forts, houses and city walls along the Malacca riverside.

KITCHEN TOOLS / KNIFE RACK / KITCHEN SET

# Family Kitchen Set

Kitchen, is no longer a woman's world, but a place that creates sweet memories. Cooking brings families together. A happy family usually spends time together. Every tool inside **JAYA MATA** kitchen set represents a member inside a family. 厨房, 不再是母亲的世界, 更是为一家人创造美好回忆的幸福角落。一家人一边劳动, 一边说说笑笑, 合力动手做出一桌子的美味佳肴。还有什么比这更幸福更值得回忆呢! **JAYA MATA** kitchen set 里的每一个刀具, 都代表着家里的一个成员。

*Aktiviti memasak membawa ahli keluarga bersama dengan penuh kebahagiaan. Setiap set peralatan dapur **JAYA MATA** mewakili setiap ahli keluarga.*

- A father is just like a chopping knife in a family. He is the one who makes all the important decisions.  
大刀: 用来处理一些比较困难的食材。就像父亲一样, 决定家里的一切大事! 所有困难有爸爸扛着。  
*Pisau Pemotong ibarat bapa yang menentukan setiap keputusan yang penting.*
  - Slicing knife is like the eldest sibling in a family. He / She is the role model for the younger siblings.  
中刀: 用来处理一些比较简单的食材。这就好比家里的老大, 帮忙父母照顾弟妹, 成为弟妹的榜样。  
*Pisau Penghiris ibarat anak sulung keluarga yang menjadi panduan kepada adik - beradik yang lain.*
  - Older sister is just like a knife, helps eldest brother to look after other younger brothers and sisters.  
小刀: 大姐, 辅助哥哥, 照顾弟妹, 就好比小刀。  
*Pisau ibarat kakak yang membantu adik - beradik yang lain.*
  - Cute little sister is just like a fruit knife in the family who always bring sweetness and happiness to the family.  
水果刀: 用于为家人准备饭后水果, 切出甜蜜和幸福。就像妹妹一样, 为家人带来欢乐和笑声。  
*Pisau Kecil ibarat adik comel yang sering membawa kebahagiaan dalam keluarga.*
  - Scissors are not always used in the kitchen, but they are still very important.  
剪刀: 弟弟, 就像剪刀, 平常不常用到, 但却非常重要。  
*Gunting jarang digunakan dalam dapur namun tetap penting juga.*
  - Grandparents just like a peeler, always work perfectly well and make jobs easier.  
削皮器: 爷爷奶奶, 经过岁月的历练, 已经可以轻松泰然地面对事物, 就像削皮器一样, 轻轻松松完成任务。  
*Alat Pengupas ibarat datuk dan nenek yang melancarkan lagi pelaksanaan tugas.*
  - Mother is just like a sharpening stone, get herself sharpened to support others.  
磨刀石: 母亲就是家里的支柱, 就像一块磨刀石, 奉献自己来磨亮家里的其他成员。  
*Batu Asah ibarat ibu yang sentiasa sedia membantu ahli keluarga yang lain.*
  - Chopping board is like our home, the origin of love and happiness.  
切菜板(砧板): 切菜板就好比为我们的家, 所有幸福由家开始。  
*Papan cincang ibarat sebuah rumah yang dipenuhi cinta dan kebahagiaan.*
- Every tool inside this kitchen set is just like every member within a family. Everyone is indispensable.  
这套 kitchen set 里的所有刀具, 就像家庭里的所有成员一样, 缺一不可。  
*Setiap peralatan dalam set dapur **JAYA MATA** mewakili setiap ahli keluarga dan kesemuanya tidak dapat dipisahkan.*

**Material:** Pewter

Durian is the king of tropical fruits. The pulp is rich in vitamins which nourishes femininity and masculinity. It strengthens the body and supplies energy and nutrition the body needs. It is the most natural health supplement on earth dedicated to millions of people.

Oil palm is being reputed as green gold mine. Palm kernel and even its tree trunk can be fully utilized for multi purposes, practically palm kernel can be extracted for palm oil which being consumed as edible oil or used as biodiesel fuel. It is a crop of high economic value, the green wealth for millions of people to get away from poverty.

Rubber is an essential economic crop found in the world with elasticity, durability and plasticity. Rubber has been used in manufacturing car tires, electrical safety protection film and medical gloves. All of these are to safeguard human being and to present love and freedom.

Durian, oil palm and rubber are the three Malaysia's most precious treasures of mother nature for the people in the world, namely health, wealth and love. These three treasures also translate the philosophy of JAYA MATA. By presenting you the said three treasures of Malaysia, we sincerely wish you with our fullest blessings in the forthcoming future undertakings.

马来西亚三宝

JM 990 PG

**Size:** 435 X 335 X 95 (mm)

**Material:** Pewter + 24 K

榴莲，热带水果的果中之王。果肉含有丰富的维生素，能滋阴补阳、强身健体，补充 身体所需的能量与营养，是大地馈赠给人们最自然健康的补品。

油棕，有着“绿色金矿”之美称。油棕果实乃至果树皆能全面利用，既能食用也可作为 燃料，是一种高经济价值的农作物，是百万人民脱离贫困生活的绿色财富。

橡胶，世界上极具弹性、韧性和可塑性的经济作物。从汽车轮胎、电器安全保护膜、到医疗手套，橡胶都为人类的安全提供保障，这就是爱与自由的表现。

榴莲、油棕和橡胶，是马来西亚大地带给人类最珍贵的三宝，即健康、财富和爱。而这也是 JAYA MATA 的制刀理念。我们希望借马来西亚这三宝，为热爱生活的人们带来满满的祝福。

# GLOSSARY 词汇表

## • HANDLE MATERIALS:

**JAYAMATA** handles are ergonomically designed to suit various blade shapes, their uses and the balance of the knife. The materials used in the handles are specially chosen to best suit function, help facilitate a strong grip and are moulded to fit any hand sizes.

**ABS** (Acrylonitrile-butadiene-styrene) a material that is easily moulded, allowing for a tough hard working handle that is impervious to extreme temperature changes, making it ideal for work in the kitchen.

**TPR** (Thermoplastic Rubber) works well as a handle inlay, is flexible and enhances the grip on the knife.

**PP** (Polypropylene) has a wide variety of uses and serves as a tough material for a knife handle, it is resistant to chemicals and can be easily moulded to create a comfortable, durable knife handle.

**POM** (Polyoxymethylene) is a hardened plastic, which creates an easy working durable handle material.

**Stainless Steel** provides a robust working handle, stainless steel handles are also available hollowed to make the knife handle lighter in weight; the appeal of stainless steel handle also lies in that they are extremely hygienic and easy to clean.

**HDPE** High-density polyethylene is a polyethylene thermoplastic made from petroleum. Known for its large strength to density ratio, HDPE is commonly used in the production of plastic bottles, corrosion-resistant piping, geomembranes, and plastic lumber.

## • BLADE STEEL MATERIALS:

The blade steel material is the most important component of any knife and **JAYAMATA** ensures that the best steel materials are used in the knife productions:

**3Cr13MoV** is a quality knife making stainless steel that retains a sharp edge and is stain resistant and easily sharpened.

**5Cr15MoV** is a premium stainless steel that retains a sharp edge and is stain resistant and easily sharpened.

**8Cr13MoV** is a High Grade stainless steel that retains a sharp edge and is stain resistant and easily sharpened.

**Carbon** is the most important alloying element in steel. With increased carbon content, steel becomes harder and stronger.

**Chromium** is added to the steel to increase resistance to oxidation. The resistance of steel increases as more chromium is added.

**Molybdenum** can promote grain-refinement in steel. It is used efficiently in steel to improve hardenability and strength.

**Vanadium** is characterised by high fire-resistance and is added to steel as a grain-refining agent. Vanadium is added to steel for strengthening purposes.

## • KNIFE USES AND DESCRIPTIONS:

**JAYAMATA** has a range of blade shapes and styles built and designed to facilitate various functions for kitchen and general use in and around the home.

**Cleaver Knife :** Used for chopping and dicing , the cleaver is the large blade with a thick spine used for heavy-duty tasks like chopping bone. This blade is also used for fine chopping and dicing of foods.

**Chef's Knife :** One of the larger blades in your collection that serves function for numerous tasks in food preparation as the long curved belly allows you to dice food and the large blade size facilitates chopping and preparing larger cuts of meat.

**Slicer Knife :** A longer and thinner blade defined by the great length of the blade allows you to slice large cuts of food with a single smooth motion.

**Boning Knife:** A thin blade long enough to be angled in and around the bone in meat in order to evenly cut away the flesh.

**Peeling Knife:** The blade of a peeling knife is small and curved in order to facilitate the peeling of fruits and vegetables; the peeling knife is also referred to as a Tourné Knife.

**Sharpening Steel:** For use in the kitchen to help retaining a sharp edge on your knives. Simply guide your knife blade along the sharpening steel to help remove any burrs along the edge of your blade.

# THANK YOU

Dear valued customer:

 would like to thank you for your support.

Since  was established, we are committed to combining various techniques of creating unique and subtle knife from all around the world to ensure the best product and protection was given to consumers.

This user's manual provides you with detailed instructions for use and care of products. Please read it carefully to understand the products and continue to give

 support and encouragement, thanks!

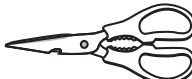

Your sincerely,

## IMPORTANT INFORMATION

- ◆ To achieve the best results, the process of selecting and processing (grinding and polishing) between bone chopper and kitchen chopper is completely different. Please use bone chopper rather than other knives to chop bones or to cut hard foods such as fish bones, dried herbs, frozen foods, etc. Otherwise it will lead to serious damage to the blade. Avoid using the knife body to beat food as the knife will be easily damaged.
- ◆ Knives are not made to cut frozen foods. Placing a lot of pressure on a piece of frozen food to break it up will quickly dull a sharp knife. If you really must, then you are best to use a serrated knife such as a bread or steak knife. Or even better, defrost the ingredients first before cutting it.
- ◆ Do not use the kitchen chopper/knife as a screwdriver or tin opener, or to cut undiluted frozen food as this will accidentally cause damage to the blade.
- ◆ To ensure its anti-rust function, do not leave tomato juice, lemon juice and other acidic or corrosive juice remain on the surface of the blade for too long.
- ◆  stainless steel kitchen knife tools and tableware are not 100% anti-rust. Please make sure your knife tools are washed, wiped dry and stored in a dry place.

## USE OF KITCHEN TOOLS

-  Bone Chopper: Primarily used to chop larger bones such as leg bones, blade bones and backbones.
-  Kitchen Chopper: Mainly used to chop small bones. It is also suitable for slicing meat, fruits and vegetables and can also be used to shred and section ingredients.
-  Multipurpose Knife: Used for fine chopping and slicing foods such as fish, fruits and vegetables.
-  Western Knife: It's lighter, cuts foods by lifting up knife blade with the tip of blade not leaving the cutting board.
-  Bread knife: Suitable for cutting bread and fruits.
-  Fruit knife: Used for cutting fruits.
-  Multipurpose Scissors: Used for cutting soft bones such as chicken, duck, fish and seafood.
-  Peeler: The blade is curved in, easy to peel spheres shaped vegetables and fruits. Used for peeling vegetables and fruits.

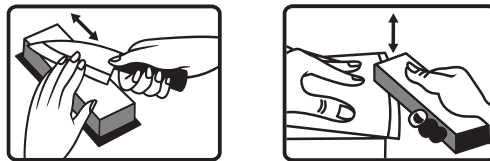

## HOW TO SHARPEN AT HOME

To keep your knife tools durable, sharp and more energy efficient, a quality  knife tools must be used together with a quality  sharpening tools.

### ◆ Sharpening Stone

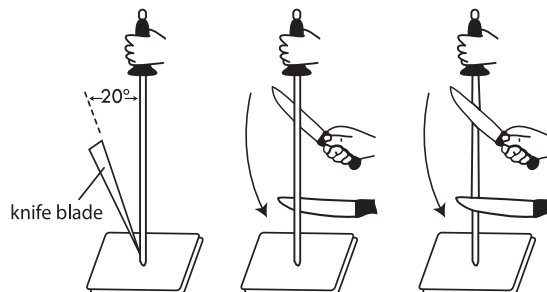

Sharpening stone comes with coarse and fine surface. Please start sharpening on the coarse side of the stone and finish with finer side to ensure a clean sharp cutting edge. For best performance, it is recommended to sharpen tools in water and clean the fine sand on the sharpening stone after finished sharpening.

1. For Sharpening knives, hold blade at a  $15^\circ$  angle and move the blade across the stone face diagonally. Repeat about 10 times and then turn to other side of the blade until it becomes sharp.
2. For a clean sharp cutting edge on hoes, spades, shears, clippers and other garden tools, use only the coarser side of the stone.

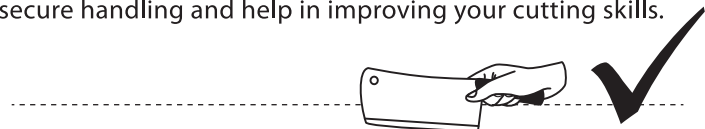

### ◆ Sharpening Stick

1. Place the blade on the sharpening stick at preferred  $20^\circ$ .
2. And then, move the knife up and down follow the radian direction.
3. Move the knife to the back of sharpening stick. Repeat the steps above for the other side of the knife.
4. Repeat 5-10 times and the knife will stay sharp as new.

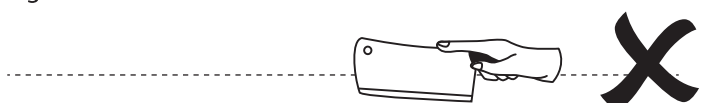

## THE CORRECT POSTURE TO HOLD A KNIFE

**Correct Posture:** Hold the knife with your forefinger and thumb on both sides and let the other fingers placed on the holder. This posture ensure more stable and secure handling and help in improving your cutting skills.

**Wrong Posture:** It is wrong when cutting with the forefinger and thumb pressed on the back of the blade as it is unstable and dangerous thus will harm the forefinger.

**Wrong Posture:** If only holding the handle and using forefinger or thumb to press the blade, it will affect flexibility of using the knife.

## SAFETY PRECAUTIONS

1. Do not touch the blade by hand to test its sharpness.
2. Often sharpen your knife as a sharp knife is much safer than a blunt knife. When cutting foods using a sharp knife, it's more accurate, energy-efficient and it does not slip easily.
3. Keep your distance when cutting foods to avoid injury if the knife accidentally fall off. Do not attempt to catch the falling knife.
4. Never place a knife tool on the stove or approach any heat source as it may cause damage to knife itself and even endanger ourselves.
5. Clean knife tools with water and wipe off along the handle to the blade to avoid injury.
6. Store your knife tools in the provided knife rack (not in drawer). Make sure the knife handle facing inward and do not let the clothes cover the knife tools as it may expose to unexpected accidents or danger. Hold the knife handle and avoid facing blade tip against other people when shifting the knife.

## CHOOSING CUTTING BOARD

The surface/material of the cutting board will affect the sharpness of a knife.

◆  knife tools are suitable to be used on the following cutting boards: Wood cutting board, plastic cutting board, silicon cutting board.

◆  knife tools are not suitable to be used on the following cutting boards: Glass, ceramic, metal, marble, and granite cutting board.

Plastic cutting boards comes with 5 colors, green for fruits and vegetables, red for raw meat, blue for seafood, yellow for cooked food and cake, white for multi-purpose.

### Taking Care of Plastic Cutting Board

- ◆ It is time to change the cutting board if scratches, blemishes or yellowish begin to appear on the surface of the board or when it starts to smell.
- ◆ Same as wood cutting board, make sure the plastic cutting board is washed, wiped dry and hang it up after using to prevent mold.

## MAINTENANCE AND REPLACEMENT

If the product quality problem still occurs (even when the product is used in accordance with guidelines),  will provide a free maintenance or replacement.

### ***The following situations are not eligible to receive free maintenance or replacement service:***

- ◆ product failure or damage due to not following the  product guidelines of use and care.
- ◆ product failure or damage caused by collision.
- ◆ product failure or damage due to fire, lightning, floods and other natural disasters.

We will make the maintenance or replacement (with the cost of the product) if the damage to the product caused by above mentioned accident.

SUPERIOR QUALITY

PREMIUM QUALITY

STANDARD QUALITY

The only knife's brand in the world provided with RM1,000,000 of product liability insurance.

## Our Mission and Vision

Bringing together the world's knife technology  
and uplifting the spirit of local craftsmanship.  
We go global while not forgetting the foremost initiative.

汇集世界刀具工艺  
发扬本土匠心精神  
走向世界  
不忘初心
